Knowledge, Skills, and Abilities

The most important knowledge, skills, and abilities (KSAs) are listed for **Pharmacy Technicians**.

Knowledge:

- **Customer and Personal Service** - Knowledge of principles and processes for providing customer and personal services. This includes customer needs assessment, meeting quality standards for services, and evaluation of customer satisfaction.
- **Mathematics** - Knowledge of arithmetic, algebra, geometry, calculus, statistics, and their applications.
- **English Language** - Knowledge of the structure and content of the English language including the meaning and spelling of words, rules of composition, and grammar.
- **Computers and Electronics** - Knowledge of circuit boards, processors, chips, electronic equipment, and computer hardware and software, including applications and programming.
- **Clerical** - Knowledge of administrative and clerical procedures and systems such as word processing, managing files and records, stenography and transcription, designing forms, and other office procedures and terminology.

Skills:

- **Active Listening** - Giving full attention to what other people are saying, taking time to understand the points being made, asking questions as appropriate, and not interrupting at inappropriate times.
- **Reading Comprehension** - Understanding written sentences and paragraphs in work related documents.
- **Speaking** - Talking to others to convey information effectively.
- **Critical Thinking** - Using logic and reasoning to identify the strengths and weaknesses of alternative solutions, conclusions or approaches to problems.
- **Service Orientation** - Actively looking for ways to help people.
- **Social Perceptiveness** - Being aware of others' reactions and understanding why they react as they do.

Abilities:

- **Near Vision** - The ability to see details at close range (within a few feet of the observer).
- **Oral Comprehension** - The ability to listen to and understand information and ideas presented through spoken words and sentences.
- **Written Comprehension** - The ability to read and understand information and ideas presented in writing.
- **Oral Expression** - The ability to communicate information and ideas in speaking so others will understand.
- **Problem Sensitivity** - The ability to tell when something is wrong or is likely to go wrong. It does not involve solving the problem, only recognizing there is a problem.
- **Speech Recognition** - The ability to identify and understand the speech of another person.

Tasks and Activities

Occupation specific tasks and the most important generalized work activities are listed for **Pharmacy Technicians**.

Occupation Specific Tasks:

- Answer telephones, responding to questions or requests.
- Assist customers by answering simple questions, locating items or referring them to the pharmacist for medication information.
- Clean, and help maintain, equipment and work areas, and sterilize glassware according to prescribed methods.
- Compute charges for medication and equipment dispensed to hospital patients, and enter data in computer.
- Deliver medications and pharmaceutical supplies to patients, nursing stations or surgery.
- Establish and maintain patient profiles, including lists of medications taken by individual patients.
- Maintain and merchandise home health-care products and services.
- Maintain proper storage and security conditions for drugs.
- Mix pharmaceutical preparations according to written prescriptions.
- Operate cash registers to accept payment from customers.
- Order, label, and count stock of medications, chemicals, and supplies, and enter inventory data into computer.
- Prepack bulk medicines, fill bottles with prescribed medications, and type and affix labels.
- Prepare and process medical insurance claim forms and records.
- Price and file prescriptions that have been filled.
- Price stock and mark items for sale.
- Receive and store incoming supplies, verify quantities against invoices, check for outdated medications in current inventory, and inform supervisors of stock needs and shortages.
- Receive written prescription or refill requests and verify that information is complete and accurate.
- Restock intravenous (IV) supplies and add measured drugs or nutrients to IV solutions under sterile conditions to prepare IV packs for various uses such as chemotherapy medication.
- Supply and monitor robotic machines that dispense medicine into containers, and label the containers.
- Transfer medication from vials to the appropriate number of sterile, disposable syringes, using aseptic techniques.

Generalized Work Activities:

- **Processing Information** - Compiling, coding, categorizing, calculating, tabulating, auditing, or verifying information or data.
- **Getting Information** - Observing, receiving, and otherwise obtaining information from all relevant sources.
- **Interacting With Computers** - Using computers and computer systems (including hardware and software) to program, write software, set up functions, enter data, or process information.
- **Evaluating Information to Determine Compliance with Standards** - Using relevant information and individual judgment to determine whether events or processes comply with laws, regulations, or standards.
- **Identifying Objects, Actions, and Events** - Identifying information by categorizing, estimating, recognizing differences or similarities, and detecting changes in circumstances or events.
- **Updating and Using Relevant Knowledge** - Keeping up-to-date technically and applying new knowledge to your job.

Detailed Work Activities:

- accept prescriptions for filling
- adhere to safety procedures

- answer customer or public inquiries
- clean rooms or work areas
- collect payment
- communicate technical information
- compound pharmaceuticals or medical preparations
- compute financial data
- deliver or obtain mail, messages, records, food or other items
- dispense prescribed medications and pharmaceuticals
- distinguish colors
- follow safe waste disposal procedures
- interpret prescriptions
- inventory medical supplies or instruments
- inventory stock to ensure adequate supplies
- label pharmaceutical supplies
- maintain customer records
- maintain dental or medical records
- maintain established procedures concerning quality assurance
- maintain record of medication or equipment dispensed to patient
- maintain records, reports, or files
- measure, weigh, or count products or materials
- mix paint, ingredients, or chemicals, according to specifications
- monitor production machinery/equipment operation to detect problems
- obtain information from clients, customers, or patients
- order or purchase supplies, materials, or equipment
- post medical insurance billings
- prepare sterile solutions, infusions, or intravenous packs
- price merchandise
- process medical records
- provide customer service
- sell merchandise
- sterilize or clean laboratory or healthcare equipment
- stock or organize goods
- store pharmaceutical supplies or filled prescriptions
- understand drug products
- understand government health, hotel or food service regulations
- understand properties or composition of drugs
- use cash registers
- use clinical sterilizing technique
- use computers to enter, access or retrieve data
- use health or sanitation standards
- use interpersonal communication techniques
- use knowledge of medical terminology
- use knowledge of metric system
- use laboratory equipment
- use precision measuring tools or equipment
- use quality assurance techniques
- use sanitation practices in health care settings
- use telephone communication techniques
- verify completeness or accuracy of data
